3rd Annual New York Coronary and Vascular Summit (NYCVS)

Tuesday, October 1, 2019

Montefiore, Moses Campus
Tishman Learning Center
111 East 210th Street
Bronx, NY 10467

Directors

Jose M. Wiley, MD, MPH

Associate Professor of Medicine
Albert Einstein College of Medicine
Director of Endovascular Interventions
Division of Cardiology
Montefiore Medical Center

Robert T. Pyo, MD

Associate Professor of Medicine
Stony Brook School of Medicine
Director of Interventional Cardiology & Cardiac
Catheterization Laboratory
Medical Director, Structural Heart Program
Stony Brook Medical Center

George Dangas, MD, PhD

Professor of Medicine
Icahn School of Medicine at Mount Sinai
Director of Cardiovascular Innovations
Zena and Michael A. Weiner Cardiovascular Institute
Mount Sinai Medical Center

REGISTER NOW www.eeds.com/live/180889 or <https://nycvs.org/>

STATEMENT OF NEED

Coronary Artery Disease (CAD) is a world epidemic affecting over 110 million people and resulting in over 8.9 million deaths. It makes up 15.9% of all death making it the most common cause of death in the world. In the United States 20% of those over 65 have CAD. Structural Heart Disease on the other hand increases both morbidity and mortality in the elder population. Epidemiological studies have determined that one in eight people aged 75 or older have moderate or severe aortic stenosis and one in ten have moderate or severe mitral regurgitation. Likewise, Peripheral Arterial Disease (PAD) affects 155 million people worldwide. In 2015 it was responsible for over 52,500 deaths up from 16,000 deaths in 1990. It carries a greater than 20% risk of a coronary event in 10 years and a 5-year mortality rate of 30%. The New York Coronary and Vascular Summit (NYCVS) is organized in conjunction with the Albert Einstein College of Medicine/Montefiore Medical Center faculty from the section of Cardiology. This year it has also partnered with faculty from the section of interventional cardiology of Stony Brook School of Medicine and faculty from the section of interventional cardiology of the Icahn School of Medicine at Mount Sinai. Guest faculty includes national and international thought leaders in the field of Interventional Cardiology, Vascular Surgery and Interventional Radiology.

ACTIVITY GOALS AND OVERVIEW

The primary focus of this course is to present a multidisciplinary approach to revascularization of patients with complex coronary, and peripheral vascular disease. The critical role of percutaneous left ventricular support (Impella, Impella CP, Percutaneous Heart Pump, R-Pella, ECMO), in supporting complex interventions will be discussed and emphasized on the case by case basis. Various interventional devices and techniques such as orbital atherectomy (OA), rotational atherectomy, laser atherectomy, and complex peripheral vascular intervention will be emphasized. Technical issues regarding retrograde CTO techniques both in coronary & peripheral cases, unprotected left main disease, heavily calcified lesions, bifurcation lesions, total occlusions, thrombotic lesions, recurrent in-stent restenosis, carotid stenting, and pedal access for complex critical limb ischemia interventions will be discussed by the faculty using live case presentations as platforms using the live case format. Treatment of emerging problems, appropriateness of revascularization and evidence-based practice guidelines will be discussed while live cases are performed. Within the live case format, current topics will be presented to provide interventional cardiologists and vascular interventionalists with state-of-

the-art information for managing patients as the dynamic field of interventional cardiology and endovascular intervention continues to evolve.

LEARNING OBJECTIVES

After attending this activity, you will be able to:

- Select the appropriate revascularization strategy in the treatment of unprotected left main disease
- Plan for the best interventional strategy with increasing wire escalations for revascularization of chronic total occlusion
- Apply case selection and choose the appropriate interventional devices for CAD, Structural Heart Disease and PAD treatment
- Choose the appropriate mechanical support device in high risk coronary interventions in the setting of severe left ventricular dysfunction
- Describe the new technology, devices and approaches in the carotid stenting
- Discuss novel imaging approaches in CAD, Structural Heart Disease and PAD

INTENDED AUDIENCE

This activity is specifically designed for:

- Interventional cardiologists who manage patients with complex coronary and vascular lesions for revascularization
- Heart failure interventionist
- Interventional radiologists and vascular surgeons
- Cardiology fellows with an interest in Interventional Radiology and Endovascular Interventions
- Nurses, technicians, and other allied health care professionals who work in Cardiac Catheterization and Vascular Laboratories

ACCREDITATION - PHYSICIANS

Albert Einstein College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION

Albert Einstein College of Medicine designates this live activity for a maximum of 7.0 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to **7.0 ABIM-Part II Medical Knowledge MOC points** in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit

participant completion information to ACCME for the purpose of granting ABIM MOC credit.

ACCREDITATION - NURSES

This activity has been submitted to Montefiore Medical Center/Montefiore Learning Network for approval to award nursing contact hours. The Montefiore Learning Network is an approved provider of continuing nursing education by the American Nurses Credentialing Center.

VERIFICATION OF ATTENDANCE

Verification of attendance will be provided to all professionals.

SUPPORT ACKNOWLEDGMENT

At the time of this printing, a list of commercial supporters (financial or in-kind) was incomplete and not available. Should this activity receive support, in part, by educational grants or in-kind materials, in accordance with the ACCME Standards for Commercial Support, appropriate acknowledgement will be provided at the time of the activity.

SPECIAL NEEDS (ADA)

Albert Einstein College of Medicine Montefiore Medical Center fully complies with the legal requirements of the Americans with Disabilities Act. If any participant is in need of special accommodations, please submit a written request at least two weeks prior to the activity via email, mquiles@montefiore.org, or mail to Center for Continuing Professional Development, 3301 Bainbridge Avenue, Bronx, NY 10467.

CANCELLATION POLICY

Request for refunds MUST be received in writing by **September 23, 2019** and will be subject to an administration fee of \$35.00. ***NO REFUNDS WILL BE MADE AFTER THIS DATE.***

CONFLICT OF INTEREST

The "Conflict of Interest Disclosure Policy" of the Albert Einstein College of Medicine requires that faculty participating in any CME activity disclose to the audience any relevant relationship(s) with a pharmaceutical or equipment company* during the past 12-month period prior to the time that the individual is asked to assume a role controlling content of this CME activity. Any presenter whose disclosed relationships prove to create a conflict of interest, with regard to their contribution to the activity, will not be permitted to present.

Albert Einstein College of Medicine also requires that faculty participating in any CME activity disclose to the audience when discussing any unlabeled or investigational use of a commercial product or device, not yet approved in the United States.

The staff of CCPD of Albert Einstein College of Medicine has no relevant conflicts of

interest with commercial interests related directly or indirectly to this educational activity.

** The ACCME defines Commercial Interest as an entity producing, marketing, re-selling or distributing health care goods or services consumed by or used on patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interest – unless the provider of clinical service is owned, or controlled by, an ACCME-defined commercial interest.*

CONFERENCE SCHEDULE

MORNING SESSION

7:15 – 7:55 AM Registration and Continental Breakfast

7:55 – 8:00 Welcome

8:00 – 10:20 AM PERIPHERAL ARTERY DISEASE SUMMIT

8:00 – 8:10 Non-Invasive Algorithm for Evaluating Patients with PAD

8:10 – 8:20 Calcified SFA: Choice of Atherectomy Devices

8:20 – 8:30 Crossing Devices for Complex CTO: Strength & Weakness

8:30 – 8:40 DES & Supera: Have They Changed the Landscape of Popliteal Interventions

8:40 – 9:10 AM DEBATE: IS PACLITAXEL DCB AND DES SAFE IN SFA INTERVENTIONS?

8:40 – 8:50 Paclitaxel DCB & DES Should Be First Line Therapy for SFA Interventions

8:50 – 9:00 Paclitaxel DCB & DES Are Dangerous and Should Be Avoided in SFA Interventions

9:00 – 9:05 Rebuttal- (Paclitaxel DCB & DES Should Be First Line Therapy for SFA Interventions)

9:05 – 9:10 Rebuttal- (Paclitaxel DCB & DES Are Dangerous and Should Be Avoided in SFA Interventions)

9:10 – 10:20 LIVE CASE #1: PERIPHERAL (MONTEFIORE-MOSES)

10:20 – 10:35 Break

10:35 – 12:40 COMPLEX CORONARY SUMMIT

10:35 – 10:45 Approach to “In Stent Restenosis”

10:45 – 10:55 My Algorithm to Treat Calcific Lesions,

10:55 – 11:05 Bifurcation PCI: Are All Strategies Equal?

11:05 – 11:15 Left Main Imaging and PCI

11:15 – 11:25 DAPT After “Twilight”

11:25 – 11:35 Role of Oral Anticoagulants After ACS/PCI

11:35 – 12:40 PM LIVE CASE #2: COMPLEX CORONARY (STONY BROOK)

12:40 – 1:40 Lunch

AFTERNOON SESSION

1:40 – 4:55 PM STRUCTURAL HEART DISEASE/ADULT CONGENITAL HEART DISEASE SUMMIT

1:40 – 1:50 Mitral Clip Applications 2019

1:50 – 2:00 Tricuspid Valve Repair Options 2019

2:00 – 2:10 Low Risk TAVR Expansion

2:10 – 2:20 Corevalve Implantation: Tips & Tricks 2019

2:20 – 2:30 New TAVR Devices 2019

2:30 – 2:40 Percutaneous Post MI VSD: Is It Ready For Prime Time?

2:40 – 2:55 Break

2:55 – 3:55 LIVE CASE #3: STRUCTURAL HEART DISEASE (MONTEFIORE- MOSES)

3:55 - 4:55 LIVE CASE # 4: STRUCTURAL HEART DISEASE (STONY BROOK)

4:55 – 5:00 Closing Remarks

REGISTRATION FORM

Name _____
First M.I. Last Degree

Mailing Address _____

City _____ State _____ Zip _____

Daytime Telephone _____

Affiliation _____ Specialty _____

E-mail _____

Special Dietary Needs: ☐ Kosher ☐ Vegetarian ☐ Gluten-Free

REGISTRATION FEES

Practicing Physician \$110.00

Fellow, Resident, PA, NP, RN \$35.00

Einstein/Montefiore and Affiliates
Complimentary

THREE EASY WAYS TO REGISTER

Email: mquiles@montefiore.org

Online: www.eeds.com/live/180889

Return Completed Registration Form with Your

Payment via Fax: 718-798-2336

Mail: Center for Continuing Professional Development, 3301 Bainbridge Avenue, Bronx, New York 10467

PAYMENT METHOD

☐ Check payable to Montefiore Medical Center

☐ Visa ☐ MasterCard ☐ American Express

Card #: _____ Exp. Date: _____

Signature: _____

Name of the Card Holder: _____

Charges to your credit card will usually appear on your statement as
Einstein/Montefiore CME Meeting.

CANCELLATION POLICY

Request for refunds MUST be received in writing by **September 23, 2019** and will be subject to an administration fee of \$50.00. *NO REFUNDS WILL BE PROCESSED AFTER THIS DATE.*
